

## Dauphin County Technical School

# Electrical Fundamentals

This course covers the basics in both residential and commercial electrical applications. This includes but not limited to: Installation of duplex receptacles, GFCI receptacles, single pole switches, 3-way switches, 4-way switches, light fixtures, interconnected smoke detectors, 120/240 volt dryer and range receptacles, use of testing equipment such as a multimeter, and installation of single pole and double pole circuit breakers. Other topics and areas will be taught based on the interest of the students.
