Insurance Protection

Insurance Protection for Students Enrolled in Career & Technical Education

1. The Technical School does not carry insurance to cover medical expense for injuries to students while attending the Technical School.
2. School Policy requires parents/guardians provide appropriate insurance coverage for costs of injuries during school either through school insurance or private insurance. School insurance forms are available in the school office. Private insurance is available from an insurance agent.
3. The Technical School will not be responsible for medical expense in excess of coverage provided by your school or other insurance.
4. Please note: All injuries occurring on school property must be reported to the Teacher and School Nurse at once. This is absolutely necessary for your insurance coverage to be effective.

Insurance Coverage

- My son/daughter/ward does not have insurance and will purchase the School Insurance Policy. *(If you do not have insurance please reach out to the DCTS Business Office for insurance options)*
- I have an individual insurance policy which covers any injury my son/daughter/ward may incur while attending Dauphin County Technical School.
