

Book	Policy Manual
Section	200 Pupils
Title	School Wellness
Number	246
Status	Active
Adopted	April 12, 2017

Purpose

Dauphin County Technical School recognizes that student wellness and proper nutrition are related to students' physical well-being, growth, development and readiness to learn. The Joint Operating Committee is committed to providing a school environment that promotes student wellness, proper nutrition, nutrition education and promotion, and regular physical activity as part of the total learning experience. In a healthy school environment, students will learn about and participate in positive dietary and lifestyle practices that can improve student achievement.

Authority

The Joint Operating Committee adopts this policy based on the recommendations of the Wellness Committee and in accordance with federal and state laws and regulations.[1][2][3]

To ensure the health and well-being of all students, the Joint Operating Committee establishes that the school shall provide to students:

1. A comprehensive nutrition program consistent with federal and state requirements.
2. Access at reasonable cost to foods and beverages that meet established nutrition guidelines.
3. Physical education courses and opportunities for developmentally appropriate physical activity during the school day.
4. Curriculum and programs that are designed to educate students about proper nutrition and lifelong physical activity, in accordance with State Board of Education curriculum regulations and academic standards.

Delegation of Responsibility

The Administrative Director or designee shall be responsible for the implementation and oversight of this policy to ensure the school's programs and curriculum is compliant with this policy, related policies and established guidelines or administrative regulations.[2][3]

The designated Food Service Director shall annually report to the Business Administrator or designee regarding compliance in his/her building.[3]

Staff members responsible for programs related to school wellness shall report to the Business Administrator or designee regarding the status of such programs.

The Food Service Director or designee and the established Wellness Committee shall conduct an assessment at least once every three (3) years on the contents and implementation of this policy as part of a continuous improvement process to strengthen the policy and ensure implementation. This triennial assessment shall be made available to the public in an accessible and easily understood manner and include:[2][3]

1. The extent to which the school is in compliance with law and policies related to school wellness.
2. The extent to which this policy compares to model wellness policies.
3. A description of the progress made by the school in attaining the goals of this policy.

At least once every three (3) years, the school shall update or modify this policy as needed, based on the results of the most recent triennial assessment and/or as school and community needs and priorities change; wellness goals are met; new health science, information and technologies emerge; and new federal or state guidance or standards are issued.[3]

The school shall annually inform and update the public, including parents/guardians, students, and others in the community, about the contents, updates and implementation of this policy via the school website, student handbooks, newsletters, posted notices and/or other efficient communication methods. This annual notification shall include information on how to access the School Wellness policy; information about the most recent triennial assessment; information on how to participate in the development, implementation and periodic review and update of the School Wellness policy; and a means of contacting Wellness Committee leadership.[2][3]

Guidelines

Recordkeeping

The school shall retain records documenting compliance with the requirements of the School Wellness policy, which shall include:[3][4]

1. The written School Wellness policy.
2. Documentation demonstrating that the school has informed the public, on an annual basis, about the contents of the School Wellness policy and any updates to the policy.
3. Documentation of efforts to review and update the School Wellness policy, including who is involved in the review and methods used by the school to inform the public of their ability to participate in the review.
4. Documentation demonstrating the most recent assessment on the implementation of the School Wellness policy and notification of the assessment results to the public.

Wellness Committee

The school shall establish a Wellness Committee comprised of, but not necessarily limited to, at least one (1) of each of the following: Joint Operating Committee member, school administrator, school food service representative, student, parent/guardian, school health professional, physical education teacher and member of the public. It shall be the goal that committee membership will include representatives from each school building and reflect the diversity of the community.[2]

The Wellness Committee shall serve as an advisory committee regarding student health issues and shall be responsible for developing, implementing and periodically reviewing and updating a School Wellness policy that complies with law to recommend to the Joint Operating Committee for adoption.

The Wellness Committee may examine related research, assess student needs and the current school environment, review existing Joint Operating Committee policies and administrative regulations, and make policy recommendations to the Joint Operating Committee related to other health issues necessary to promote student wellness.

The Wellness Committee shall review and consider evidence-based strategies and techniques in establishing goals for nutrition education and promotion, physical activity and other school based activities that promote student wellness as part of the policy development and revision process.[3]

The Wellness Committee shall provide periodic reports to the Administrative Director or designee regarding the status of its work, as required.

Nutrition Education

Nutrition education will be provided within the sequential, comprehensive health education program in accordance with curriculum regulations and the academic standards for Health, Safety and Physical Education, and Family and Consumer Sciences.[5][6][7]

Nutrition education shall teach, model, encourage and support healthy eating by students. Promoting student health and nutrition principles enhances readiness for learning and increases student achievement.

Nutrition education shall provide all students with the knowledge and skills needed to lead healthy productive lives.

Nutrition education lessons and activities shall be age-appropriate.

Nutrition curriculum shall teach behavior-focused skills, which may include menu planning, reading nutrition labels and media awareness.

The school's food service and nutrition education classes shall cooperate to create a learning environment.

Nutrition education shall be integrated into other subjects such as math, science, language arts and social sciences to complement but not replace academic standards based on nutrition education.

Lifelong lifestyle balance shall be reinforced by linking nutrition education and physical activity.

The staff responsible for providing nutrition education shall be properly trained and prepared and shall participate in appropriate professional development. The school shall develop standards for such training and professional development.[8]

Nutrition education shall extend beyond the school environment by engaging and involving families and communities.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs.

School staff shall cooperate with agencies and community organizations to provide opportunities for appropriate student projects related to nutrition.

Consistent nutrition messages shall be disseminated throughout the school, classrooms, cafeterias, homes, community and media.

Physical Activity

The school shall strive to provide opportunities for developmentally appropriate physical activity during the school day for all students. Activities shall be designed to achieve improved health, wellness, fitness and performance benefits.

The school shall contribute to the effort to provide students opportunities to accumulate at least sixty (60) minutes of age-appropriate physical activity daily, as recommended by the Centers for Disease Control and Prevention. Opportunities offered at school will augment physical activity outside the school environment, such as walking, sports, etc.

Age-appropriate physical activity opportunities, such as before and after school programs, during lunch, clubs, intramurals and interscholastic athletics, shall be provided to meet the needs and interests of all students, in addition to planned physical education.

The school shall foster a physical and social environment that encourages safe, appropriate and enjoyable physical activity for all students.

Extended periods of student inactivity, two (2) hours or more, shall be discouraged.

The school shall partner with parents/guardians, interested community members, participating school districts and organizations, such as YMCAs, Boys & Girls Clubs, local and state parks, hospitals, etc., to develop and implement programs that support lifelong physical activity.

Physical activity shall not be used or withheld as a form of punishment.

Students and the community shall have access to school-owned physical activity facilities outside school hours in accordance with established rules.

Physical Education

A sequential physical education program consistent with curriculum regulations and Health, Safety and Physical Education academic standards shall be developed and implemented. All enrolled students must participate in physical education if provided by the school.[6][7][9]

Quality physical education instruction shall focus on lifelong physical activity, making fitness fun, and provide instruction in the skills and knowledge necessary for lifelong participation.

Physical education classes shall be the means through which all students learn, practice and are assessed on developmentally appropriate skills and knowledge necessary for lifelong, health-enhancing physical activity.

A varied and comprehensive curriculum that promotes both team and individual activities and leads to students becoming and remaining physically active for a lifetime shall be provided in the physical education program.

The school shall provide adequate amounts of planned instruction in order for students to achieve the proficient level for the Health, Safety and Physical Education academic standards.

A local assessment system shall be implemented to track student progress on the Health, Safety and Physical Education academic standards.

Students shall be moderately to vigorously active as much time as possible during a physical education class. Students with documented medical conditions and disabilities shall be accommodated during class.

Safe and adequate equipment, facilities and resources shall be provided for physical education courses.

Physical education shall be taught by certified health and physical education teachers.

Appropriate professional development, including opportunities for professional dialog, shall be provided for physical education staff.

Other School Based Activities

Drinking water shall be available and accessible to students, without restriction and at no cost to the student, at meal periods and throughout the school day.[10][11]

Nutrition professionals who meet hiring criteria established by the school and in compliance with federal regulations shall administer the school meals program. Professional development and continuing education shall be provided for nutrition staff, as required by federal regulations.[8][12][13][14]

Students shall be provided a clean and safe meal environment with adequate space for eating and serving school meals.

Students shall be provided adequate time to eat: ten (10) minutes sit down time for breakfast; twenty (20) minutes sit down time for lunch.

Meal periods shall be scheduled at appropriate hours, as required by federal regulations and as defined by the school.[10]

Students shall have access to hand washing or sanitizing before meals and snacks.

Access to the cafeteria operations shall be limited to authorized staff.

Nutrition content of school meals shall be available to students and parents/guardians.

Students and parents/guardians may be involved in menu selections through various means, such as taste testing and surveys.

To the extent possible, the school shall utilize available funding and outside programs to enhance student wellness.

The school shall provide appropriate training to all staff on the components of the School Wellness policy.

Goals of the School Wellness policy shall be considered in planning all school based activities.

Fundraising projects shall be submitted for approval to the building administrator or designee and shall be supportive of healthy eating and student wellness.

Administrators, teachers, food service personnel, students, parents/guardians and community members shall be encouraged to serve as positive role models through school programs, communications and outreach efforts.

The school shall support the efforts of parents/guardians to provide a healthy diet and daily physical activity for children by communicating relevant information through various methods.

Nutrition Guidelines for All Foods/Beverages at School

All foods and beverages available in the school during the school day shall be offered to students with consideration for promoting student health and reducing obesity.

Foods and beverages provided through the National School Lunch or School Breakfast Programs shall comply with established federal nutrition standards.[10][11][12][13]

Foods and beverages offered or sold at school-sponsored events outside the school day, such as athletic events and dances, shall offer healthy alternatives in addition to more traditional fare.

Competitive Foods -

Competitive foods available for sale shall meet or exceed the established federal nutrition standards (USDA Smart Snacks in School). These standards shall apply in all locations and through all services where foods and beverages are sold to students, which may include, but are not limited to: a la carte options in cafeterias, vending machines, school stores, snack carts and fundraisers.[3][15][16]

Competitive foods are defined as foods and beverages offered or sold to students on school campus during the school day, which are not part of the reimbursable school breakfast or lunch.

For purposes of this policy, **school campus** means any area of property under the jurisdiction of the school that students may access during the school day.[3][15]

For purposes of this policy, **school day** means the period from midnight before school begins until thirty (30) minutes after the end of the official school day.[3][15]

The school may impose additional restrictions on competitive foods, provided that the restrictions are not inconsistent with federal requirements.[15]

Fundraiser Exemptions -

Fundraising activities held during the school day involving the sale of competitive foods shall be limited to foods that meet the Smart Snacks in School nutrition standards, unless an exemption is approved in accordance with applicable Joint Operating Committee policy and administrative regulations.[17]

The school may allow a limited number of exempt fundraisers as permitted by the Pennsylvania Department of Education each school year: up to ten (10) exempt fundraisers. Exempt fundraisers are fundraisers in which competitive foods are available for sale to students that do not meet the Smart Snacks in School nutrition standards.[15]

The school shall establish administrative regulations to implement fundraising activities, including procedures for requesting a fundraiser exemption.

Non-Sold Competitive Foods -

Non-sold competitive foods available to students, which may include but are not limited to foods and beverages offered as rewards and incentives, at classroom parties and celebrations, or as shared classroom snacks, shall meet or exceed the standards established by the school.

If the offered competitive foods do not meet or exceed the Smart Snacks in School nutrition standards, the following standards shall apply:

1. Rewards and Incentives:

- a. Foods and beverages shall not be used as a reward or incentive in the school.

2. Classroom Parties and Celebrations:

- a. Classroom parties/celebrations with food/beverages shall be limited to no more than one (1) per month in each classroom.

- b. Parents/Guardians shall be informed through newsletters or other efficient communication methods that foods/beverages should only be brought in when requested for scheduled parties.
- c. Classroom parties shall offer a minimal amount of foods (maximum 2-3 items) containing added sugar as the primary ingredient (e.g., cupcakes, cookies) and will provide the following:
 - i. Fresh fruits/vegetables; and
 - ii. Water, 100 percent juice, 100 percent juice diluted with water, low-fat milk or nonfat milk.
- d. When possible, foods/beverages for parties and celebrations shall be provided by the food service department to help prevent food safety and allergy concerns.

3. Shared Classroom Snacks:

- a. Nutritional shared classroom snacks are permitted in the school.

The school shall provide a list of suggested nonfood ideas and healthy food and beverage alternatives to parents/guardians and staff, which may be posted via the school website, student handbooks, newsletters, posted notices and/or other efficient communication methods.

Marketing/Contracting -

Any foods and beverages marketed or promoted to students on the school campus during the school day shall meet or exceed the established federal nutrition standards (USDA Smart Snacks in School) and comply with established Joint Operating Committee policy and administrative regulations.[3][15]

Exclusive competitive food and/or beverage contracts shall be approved by the Joint Operating Committee, in accordance with provisions of law. Existing contracts shall be reviewed and modified to the extent feasible to ensure compliance with established federal nutrition standards, including applicable marketing restrictions.[18]

Management of Food Allergies in the School

The school shall establish Joint Operating Committee policy and administrative regulations to address food allergy management in the school in order to:[19]

1. Reduce and/or eliminate the likelihood of severe or potentially life-threatening allergic reactions.
2. Ensure a rapid and effective response in case of a severe or potentially life-threatening allergic reaction.
3. Protect the rights of students by providing them, through necessary accommodations when required, the opportunity to participate fully in all school programs and activities.
